

# Brainstorming Questions for Organizations Before Presentations

To prepare for the site visits and/or presentations, have students prepare questions to ask organizations.

These questions might include:

- ✓ What types of services and programs does your organization provide to the community?
- ✓ Who does your organization serve? How many?
- ✓ How large is your organization? How many employees?
- ✓ Are you a local organization, or do you have other locations?
- ✓ What kinds of projects or programs would the funds be used for?
- ✓ What type of volunteer help or services does your organization need (service project ideas)?
